

TABLE OF CONTENTS

Preface.....	x1
Chapter 1 Introduction to Antibodies	1
Introduction	1
1.1 Biochemistry of Antibody	2
1.1.1 Antibodies Work	3
1.1.2 Antibodies and B cells	4
1.1.3 Antibody Structure and Classes	5
1.1.4 Antibodies in Medicine and Research	6
1.1.5 The Functions of Antibodies	7
1.1.6 The Specificity of Antibodies.....	8
1.1.7 The Diversity of Antibodies and Immunological Memory	9
1.1.8 Antigen vs Antibody	11
1.1.9 The Biological Function of Antibodies.....	12
1.2 Types of Antibodies and their Function.....	15
1.2.1 IgA.....	15
1.2.2 IgD.....	20
1.2.3 IgE.....	23
1.2.4 IgG.....	30
1.2.5 IgM.....	32
References.....	43
Chapter 2 Selection Strategies for Monoclonal Antibodies	45
Introduction	45
2.1 Monoclonal Antibody Strategy and Techniques	46
2.1.1 Characterization of the Monoclonal Antibody	48

5.3.3 Targeting T Cell Receptors.....	191
References.....	200

Chapter 6 Blood Group Antigens 203

Introduction	203
6.1 Blood Group Systems	204
6.1.1 ABO Blood Group System	205
6.1.2 Rh Blood Group System.....	206
6.1.3 ABO and Rh Distribution by Country	207
6.1.4 Other Blood Group Systems.....	207
6.2 Historical Background of Blood Group	208
6.3 The Importance of Antigens and Antibodies	211
6.4 Chemistry of the Blood Group Substances.....	212
6.5 Blood Group Antigens are Surface Markers on the Red Blood Cell Membrane	213
6.5.1 Antigens Stimulate an Immune Response	213
6.5.2 Red Blood Cell Antigens Can Be Sugars or Proteins.....	214
6.5.3 Red Blood Cell Antigens Determine Your Blood Group	215
6.5.4 Blood Groups Differ Around the World.....	216
6.5.5 The Classification of Blood Cell Antigens	218
6.6 The ABO Blood Group	219
6.6.1 Antigens of the ABO Blood Group.....	220
6.6.2 Antibodies Produced against ABO Blood Group Antigens.....	221
6.6.3 History	221
6.6.4 Basic Biochemistry	223
6.6.5 Clinical Significance of ABO Antibodies	226
6.7 The Hh Blood Group	227
6.7.1 Antigens of the Hh Blood Group.....	228
6.7.2 Antibodies Produced against the H Antigen	229
6.7.3 History	229
6.7.4 Basic Biochemistry	230
6.7.5 Clinical Significance of H Antibodies	233
6.8 The Rh Blood Group.....	233
6.8.1 Antigens of the Rh Blood Group	234
6.8.2 Antibodies Produced Against Rh Antigens	235
6.8.3 History	235

7.3.7 The Transmembrane Domain – More Than Only a Membrane Anchor	283
7.3.8 Extracellular Spacer Domains Promote CAR Expression and Function	283
7.3.9 The Second and Third Signals of the CAR	284
References	287

Index	289
