

# TABLE OF CONTENTS

*Preface*

xv

<b>Chapter 1</b>	<b>Fundamental Principle of Microbiology .....</b>	<b>1</b>
	1.1 Introduction .....	1
	1.1.1 General Microbiology .....	3
	1.1.2 Why is Microbiology Important? .....	3
	1.2 General Principles .....	4
	1.3 Common Food-Borne Microorganisms .....	5
	1.3.1 Bacteria .....	5
	1.3.2 Fungi .....	7
	1.3.3 Viruses .....	8
	1.3.4 Bacteriophage .....	9
	1.3.5 Gram-positive Bacteria .....	9
	1.3.6 Gram-negative Bacteria .....	10
	1.4 Micro-Organisms and Food .....	12
	1.4.1 Food Spoilage/Preservation .....	12
	1.4.2 Food Safety .....	13
	1.4.3 Fermentation .....	14
	1.5 What Causes Microorganisms to Grow .....	14
	1.5.1 Extrinsic Factors .....	14
	1.5.2 Intrinsic Factors .....	15
	1.5.3 Implicit Factors .....	17
	1.5.4 Interaction between Growth Factors .....	19
	1.6 Effects of Microorganisms on Spoilage .....	19
	1.6.1 Physical Changes .....	20
	1.6.2 Chemical Changes .....	20

1.7 Effects of Microorganisms on Foodborne Illness .....	21
1.7.1 Foodborne Disease .....	21
1.8 Controlling Microbial Growth .....	21
1.9 Branches of Microbiology .....	23
1.9.1 Pure Microbiology .....	23
1.9.2 Applied Microbiology .....	25
1.10 Applications of Microbiology .....	26
<b>Chapter 2 Food Poisoning and Other Food Borne Hazards .....</b>	<b>28</b>
2.1 What is Food Poisoning? .....	28
2.1.1 How does Food Become Contaminated? .....	29
2.1.2 Who is at Risk for Food Poisoning? .....	30
2.1.3 How is Food Poisoning Diagnosed? .....	30
2.1.4 How is Food Poisoning Treated? .....	30
2.2 Bacterial Food Poisoning .....	31
2.2.1 Food-Borne Diseases and Food Poisoning .....	31
2.2.2 Food Poisoning Bacteria .....	31
2.3 Causes of Food Poisoning .....	32
2.3.1 Biological Food Poisoning .....	32
2.3.2 Bacterial Food Poisoning .....	33
2.3.3 Chemical Food Poisoning .....	34
2.4 Foodborne Illness .....	35
2.5 Causes of Foodborne Illness .....	35
2.5.1 Bacteria .....	35
2.5.2 Mycotoxins and Alimentary Mycotoxicoses .....	38
2.5.3 Viruses .....	40
2.5.4 Parasites .....	40
2.5.5 Natural Toxins .....	41
2.5.6 Other Pathogenic Agents .....	41
2.5.7 "Ptomaine Poisoning" .....	41
2.6 Foodborne Mechanism .....	42
2.6.1 Incubation Period .....	42
2.6.2 Infectious Dose .....	42
2.7 Microbiology of Foodborne Illness .....	42
2.8 Prevention of Foodborne Illness .....	43
<b>Chapter 3 Food Spoilage .....</b>	<b>47</b>
3.1 Food Spoilage .....	47
3.1.1 Scenario of Food Spoilage Worldwide .....	48
3.1.2 Scenario of Food Spoilage in India .....	50
3.2 Food Spoilage Microorganisms .....	52
3.2.1 Yeasts .....	52
3.2.2 Molds .....	53

3.2.3 Bacteria .....	54
3.3 How Food Spoils .....	56
3.3.1 Microorganisms .....	56
3.3.2 Enzymes .....	57
3.3.3 Air .....	57
3.3.4 Light .....	57
3.3.5 Insects, Rodents, Parasites and Other Creatures .....	57
3.3.6 Physical Damage .....	57
3.3.7 Temperature .....	57
3.3.8 Time .....	58
3.4 Types of Food Spoilage .....	58
3.4.1 Microbial Spoilage .....	58
3.4.2 Physical Spoilage .....	58
3.4.3 Chemical Spoilage .....	59
3.4.4 Appearance of Spoiled Food .....	59
3.5 Spoilage of Fruits and Vegetables .....	59
3.6 Spoilage of Dairy Products .....	61
3.7 Prevention from Food Spoilage Microorganism .....	62
3.7.1 Chemical Preservatives .....	63
3.7.2 Use of Food Additives .....	64
3.8 Factors Affecting Food Spoilage .....	65
3.8.1 Water Content .....	65
3.8.2 Environmental Conditions .....	66
3.8.3 Packaging and Storage .....	66
<b>Chapter 4 Principle of Safe Food Storage .....</b>	<b>67</b>
4.1 Food Storage .....	67
4.2 General Principles of Storage .....	68
4.2.1 Temperature .....	68
4.2.2 Humidity .....	68
4.2.3 Rotation .....	68
4.2.4 Position .....	69
4.2.5 Labelling .....	69
4.3 Domestic Food Storage .....	69
4.3.1 Food Storage Safety .....	70
4.3.2 Storing Oils and Fats .....	70
4.3.3 Dry Storage of Foods .....	72
4.3.4 Food Rotation .....	72
4.3.5 For Emergency Preparation .....	73
4.4 Commercial Food Logistics .....	73
4.5 Storing Canned Food .....	74
4.6 Food Preservation .....	74

4.6.1 Why Preservation? .....	75
4.6.2 How Long to Preserve? .....	76
4.6.3 For Whom to Preserve? .....	76
4.6.4 Importance of Food Preservation .....	78
4.6.5 Principles of Food Preservation .....	79
4.7 Traditional Techniques .....	80
4.7.1 Curing .....	80
4.7.2 Cooling .....	80
4.7.3 Freezing .....	80
4.7.4 Boiling .....	81
4.7.5 Heating .....	81
4.7.6 Sugaring .....	81
4.7.7 Pickling .....	81
4.7.8 Lye .....	82
4.7.9 Canning .....	82
4.7.10 Jellying .....	82
4.7.11 Jugging .....	83
4.7.12 Burial .....	83
4.7.13 Fermentation .....	83
4.8 Modern Industrial Techniques .....	84
4.8.1 Pasteurization .....	84
4.8.2 Vacuum Packing .....	84
4.8.3 Artificial Food Additives .....	84
4.8.4 Irradiation .....	84
4.8.5 Pulsed Electric Field Electroporation .....	85
4.8.6 Modified Atmosphere .....	85
4.8.7 Non-thermal Plasma .....	86
4.8.8 High-pressure Food Preservation .....	86
4.8.9 Biopreservation .....	87
4.8.10 Hurdle Technology .....	87

**Chapter 5 Design of Food Processing Equipment .....** 88

5.1 Introduction .....	88
5.2 Legislation .....	89
5.3 Basic Hygienic Requirements .....	92
5.4 Materials of Construction .....	95
5.4.1 General Recommendations .....	95
5.4.2 Use of Metals and Alloys .....	95
5.4.3 Use of Plastics .....	96
5.4.4 Use of Rubbers .....	97
5.4.5 Other Materials .....	98
5.5 Surface Finish .....	99

5.6 Hygienic Design of Open Equipment for Processing of Food .....	99
5.6.1 Permanent and Dismountable Joints .....	99
5.6.2 Hygienic Design of Process Vessels, Containers, Bins, etc. ....	103
5.6.3 Equipment Framework .....	113
5.6.4 Feet .....	114
5.6.5 Castors .....	116
5.6.6 Belt Conveyor .....	119
5.6.7 Covers and Guards .....	122
5.6.8 Maintenance Enclosures .....	123
5.7 Hygienic Design Closed Equipment for Processing of Liquid Food .....	125
5.7.1 Process and Utility Lines .....	125
5.7.2 Hoses .....	129
5.7.3. Pipe Joints .....	129
5.7.4 Hygienic Design of Pumps .....	132
5.7.5 Sensors and Instrumentation .....	133
5.7.6 Hygienic Design of Valves .....	136
5.8 Installation of the Food Processing Equipment in the Food Factory	139
5.8.1 Clearance with Respect to the Floor, Walls and Adjacent Equipment .....	139
5.8.2 Raised Walkways and Stairs .....	140
5.9 Hygiene Practices during Maintenance Operations in the Food Industry .....	141
5.9.1 Maintenance and Repair, a Necessary Evil .....	141
5.9.2 Scheduled Preventive Maintenance .....	141
<b>Chapter 6 Basic of Toxicology Related to Food .....</b>	<b>149</b>
6.1 Introduction .....	149
6.2 Basic Principles .....	151
6.3 Branches of Toxicology .....	152
6.4 Types of Toxicology .....	152
6.4.1 Medical Toxicology .....	152
6.4.2 Clinical Toxicology .....	153
6.4.3 Computational Toxicology .....	153
6.5 Testing Methods .....	154
6.5.1 Non-human Animals .....	154
6.5.2 Alternative Testing Methods .....	154
6.6 Dose-Response .....	155
6.7 Potency .....	158
6.8 Hormesis .....	158
6.9 Margin of Safety .....	159
6.10 Biologic Factors That Influence Toxicity .....	161

6.11 Absorption .....	162
6.12 Biological Determination of Toxicants .....	165
6.12.1 Acute Toxicity .....	165
6.12.2 Genetic Toxicity .....	165
6.12.3 Bioassay .....	166
6.12.4 Metabolism .....	168
6.12.5 Subchronic Toxicity .....	168
6.12.6 Teratogenesis .....	169
6.12.7 Chronic Toxicity .....	171
6.13 Toxicology as a Profession .....	172
<b>Chapter 7 Food Additives .....</b>	<b>174</b>
7.1 Introduction .....	174
7.2 Regulations .....	177
7.3 Preservatives .....	180
7.3.1 Benzoic Acid .....	181
7.3.2 Sorbic Acid and Potassium Sorbate .....	183
7.3.3 Hydrogen Peroxide .....	184
7.3.4 AF-2 [2-(furyl)-3-(5-nitro-2-furyl)acrylamide] .....	184
7.4 Antioxidants .....	185
7.4.1 L-Ascorbic Acid (Vitamin C) .....	186
7.4.2 dl- $\alpha$ -Tocopherol (Vitamin E) .....	186
7.4.3 Propyl Gallate .....	187
7.4.4 Butylated Hydroxyanisole and Butylated Hydroxytoluene .....	187
7.5 Sweeteners .....	188
7.5.1 Saccharin and Sodium Saccharin .....	188
7.5.2 Sodium Cyclamate .....	189
7.6 Colouring Agents .....	190
7.6.1 Amaranth (FD&C Red No. 2) .....	191
7.6.2 Tartrazine (FD&C Yellow No. 4) .....	192
7.7 Flavouring Agents .....	193
7.7.1 Methyl Anthranilate .....	194
7.7.2 Safrole (1-Allyl-3,4-Methylenedioxybenzene) .....	194
7.7.3 Diacetyl (2, 3-butane dione) .....	195
7.8 Flavour Enhancers .....	195
<b>Chapter 8 Toxicants Formed during Food Processing .....</b>	<b>196</b>
8.1 Introduction .....	196
8.2 Polycyclic Aromatic Hydrocarbons (PAHs) .....	197
8.2.1 Occurrence .....	197
8.2.2 Benzo[a]pyrene (BP) .....	199
8.3 Maillard Reaction Products .....	202

8.4 Polycyclic Aromatic Amines (PAA) .....	203
8.4.1 Occurrence .....	203
8.4.2 Toxicity .....	205
8.5 N-Nitrosamines .....	206
8.5.1 Precursors .....	206
8.5.2 Occurrence in Various Foods .....	207
8.5.3 Toxicity .....	208
8.5.4 Mode of Toxic Action .....	209
8.5.5 General Considerations .....	210
8.6 Acrylamide .....	211
8.6.1 Formation Mechanisms of Acrylamide in Foods .....	211
8.6.2 Toxicity .....	213
8.6.3 Mode of Action .....	213
8.6.4 General Considerations .....	214
8.7 Food Irradiation .....	215
<b>Chapter 9 Personal Hygiene and Sanitary Food Handling .....</b>	<b>216</b>
9.1 Personal Hygiene .....	216
9.1.1 Employee Hygiene .....	216
9.1.2 Skin .....	217
9.1.3 Fingers .....	219
9.1.4 Fingernails .....	219
9.1.5 Jewelry .....	219
9.1.6 Hair .....	219
9.1.7 Eyes .....	220
9.1.8 Mouth .....	220
9.1.9 Nose, Nasopharynx, and Respiratory Tract .....	220
9.1.10 Excretory Organs .....	221
9.1.11 Personal Contamination of Food Products .....	222
9.1.12 Hand Washing .....	223
9.1.13 Methods of Disease Transmission .....	226
9.1.15 Requirements for Hygienic Practices .....	227
9.2 Sanitary Food Handling .....	228
9.2.1 Role of Employees .....	229
9.2.2 Required Personal Hygiene .....	229
9.2.3 Facilities .....	229
9.2.4 Employee Supervision .....	230
9.2.5 Employee Responsibilities .....	230
<b>Chapter 10 Quality Assurance for Sanitation .....</b>	<b>231</b>
10.1 The Role of Total Quality Management .....	232
10.2 Quality Assurance for Effective Sanitation .....	233

10.2.1 Major Components of Quality Assurance .....	233
10.3 Organization for Quality Assurance .....	234
10.3.1 Major Responsibilities of a Sanitation Quality Assurance Programme .....	235
10.3.2 The Role of ISO Accreditation .....	236
10.3.3 The Role of Management in Quality Assurance .....	236
10.3.4 Quality Assurance and Job Enrichment .....	237
10.3.5 Quality Assurance Programme Structure .....	237
10.4 Establishment of a Quality Assurance Programme .....	239
10.4.1 Elements of a Total Quality Assurance System .....	240
10.4.2 New Employee Training .....	240
10.4.3 Hazard Analysis Critical Control Point (HACCP) Approach .....	240
10.4.4 Programme Evaluation .....	241
10.4.5 Assay Procedures for Evaluation of Sanitation Effectiveness .....	241
10.4.6 Importance of a Monitoring Programme .....	242
10.4.7 Auditing Considerations .....	243
10.4.8 Preparation for an Audit .....	244
10.4.9 Recall of Unsatisfactory Products .....	244
10.4.10 Sampling for a Quality Assurance Programme .....	245
10.4.11 Sampling Procedures .....	246
10.4.12 Basic QA Tools .....	247
10.4.13 Role of Statistical Quality Control .....	248
10.4.14 Central Tendency Measurements .....	248
10.4.15 Displaying Data .....	249
10.4.16 Control Charts .....	250
10.4.17 Attribute Control Charts .....	253
10.4.18 Explanation and Definition of Statistical Quality Control Programme Standards .....	256
10.4.19 Cumulative Sum (CUSUM) Control Charts .....	257
<b>Chapter 11 Environmental Toxicology .....</b>	<b>258</b>
11.1 Environmental Toxicology .....	258
11.2 Sources of Environmental Toxicity .....	259
11.2.1 PCBs .....	259
11.2.2 Heavy Metals .....	259
11.2.3 Pesticides .....	260
11.3 Environmental Contaminants and Food Safety .....	261
11.4 Pollution from Food Processing Factories and Environmental Protection .....	262
11.5 Pollution from Food Processing .....	263
11.5.2 Meat, Poultry, and Seafood Sector .....	264
11.5.3 Beverage and Fermentation Sector .....	265
11.5.4 Dairy Sector .....	265

11.5.5 Can Cooker Products .....	266
11.5.6 Wastewater from Food Processing Factories .....	266
11.5.7 Defining Load Using BOD5 and COD .....	267
11.5.8 Relating COD to BOD5 .....	267
11.6 Environmental Protection .....	267
11.6.1 Source Reduction .....	267
11.6.2 Management Alternatives .....	268
11.6.3 Clean Technology Developments .....	269
11.7 Future Trends .....	272
<b>Chapter 12 Food Laws and Food Standards .....</b>	<b>274</b>
12.1 Food Laws .....	275
12.1.1 Prevention of Food Adulteration Act .....	275
12.1.2 The Fruit Products Order .....	276
12.1.3 Meat Products Order .....	276
12.2 ISI Standards .....	277
12.3 The Agmark Standard .....	277
12.4 Export Inspection Council .....	277
12.5 Standards of Weights and Measures .....	278
12.6 Food Adulteration .....	278
12.6.1 Common Adulterants and Their Ill-effects .....	278
12.6.2 Incidental Adulterants .....	279
12.6.3 Metallic Contamination .....	279
12.6.4 Contamination by Pests and Pesticide Residues .....	280
12.6.5 Packaging Hazards .....	280
12.6.6 Health Hazards due to Consuming Exposed Snacks .....	281
12.6.7 Simple Physical Tests for Detection of Food Adulterants .....	281
12.6.8 Simple Laboratory Chemical Tests .....	282
12.7 Consumer Protection .....	282
12.7.1 Municipal Laboratories .....	283
12.7.2 Food and Drug Administration .....	283
12.7.3 The Central Food Testing Laboratory .....	284
12.7.4 Export Inspection Council Laboratory .....	284
12.7.5 Central Grain Analysis Laboratory .....	284
12.8 Voluntary Agencies .....	284
12.8.1 Quality Control Laboratories of Companies .....	285
12.8.2 Quality Control laboratories of Consumer Co-operatives .....	285
12.8.3 Private Testing Laboratories .....	286
12.8.4 Consumer Guidance Society .....	286
<b>Bibliography .....</b>	<b>287</b>
<b>Index .....</b>	<b>290</b>
